

LIST OF FIGURES

INTRODUCTION

Figure 1 -	Function of Individuals Surveyed.....	IN-4
Figure 2 -	End-Use Market Segments Share of Lines Surveyed.....	IN-5
Figure 3 -	Location of Galvanizing Lines Surveyed.....	IN-6

Section 1 – CHARACTERIZING THE PLANTS & GALVANIZING LINES SURVEYED

Figure 4 -	Steel Processing Capacity of Galvanizing Lines Processing Steel in Exposed Automotive Segment.....	1-2
Figure 5 -	Steel Processing Capacity of Galvanizing Lines Primarily Processing Steel for the Unexposed Automotive & Appliance Market.....	1-3
Figure 6 -	Steel Processing Capacity of Galvanizing Lines Primarily Processing Steel for Construction Market.....	1-3
Figure 7 -	Steel Processing Capacity of Galvanizing Lines Primarily Processing Steel for Commercial & Other Markets.....	1-4
Figure 8 -	Year of Start-Up or Latest Major Revamp of Galvanizing Lines Surveyed Processing Steel for Exposed Automotive Market.....	1-6
Figure 9 -	Year of Start-Up or Latest Major Revamp of Galvanizing Lines Surveyed Processing Steel for Unexposed Automotive or Appliance Market.....	1-6
Figure 10 -	Year of Start-Up or Latest Major Revamp of Galvanizing Lines Surveyed Processing Steel for Construction Market.....	1-7
Figure 11 -	Year of Start-Up or Latest Major Revamp of Galvanizing Lines Surveyed Processing Steel for Commercial & Other Markets.....	1-7
Figure 12 -	Projected 2010 Production, Capacity & Share of Capacity of Galvanizing Lines Surveyed by Segment.....	1-8
Figure 13 -	Share of Galvanizing by Lines Surveyed by Type of Galvanizing.....	1-8

Figure 14 -	Share of Production by Type of Metallic Coating	1-9
Figure 15 -	Share of 2010 Projected Galvanizing Production by Type of Substrate.....	1-10
Figure 16 -	Share of 2010 Projected Galvanizing Production by Type of Substrate by Segment	1-10
Figure 17 -	Share of Galvanizing by Lines Surveyed by End-Use Market	1-12
Figure 18-	End-Use Market by Segment.....	1-12
Figure 19 -	Share of End-Use Market for Galvanizing by Segment	1-13

Section 2 – GALVANIZING LINE PARAMETERS

Figure 20 -	Line Speeds of Galvanizing Lines Surveyed Producing Exposed Automotive	2-1
Figure 21 -	Line Speeds of Lines Surveyed Producing Exposed Galvanealed.....	2-2
Figure 22 -	Line Speeds of Automotive Exposed Segment Lines Surveyed Producing Unexposed Galvanized	2-2
Figure 23 -	Line Speeds of Other Automotive & Appliance Segment Lines Surveyed Producing Unexposed Galvanized	2-3
Figure 24 -	Line Speeds of Construction Segment Lines Surveyed Producing Unexposed Galvanized.....	2-3
Figure 25 -	Line Speeds of Commercial & Other Segment Lines Surveyed Producing Unexposed Galvanized	2-4
Figure 26 -	Line Speeds of Lines Surveyed Producing Unexposed Galvannealed.....	2-4
Figure 27 -	Line Speeds of Lines Surveyed Producing Galvalume in Construction Segment	2-5
Figure 28 -	Line Speeds of Lines Surveyed in Automotive Exposed Segment.....	2-5
Figure 29 -	Line Speeds of Lines Surveyed in Non-Exposed Automotive & Appliances Segment.....	2-6
Figure 30 -	Line Speeds of Lines Surveyed in the Construction Segment.....	2-6

Figure 31 -	Line Speeds of Lines Surveyed in the Commercial & Other End-Use Markets Segment	2-7
Figure 32 -	What Limits Line Speed in HDG Lines Surveyed	2-7
Figure 33 -	What Limits Galvanizing Line Speed by Segment.....	2-8
Figure 34 -	Widths of Strip Processed by Galvanizing Lines in Automotive Exposed Segment	2-8
Figure 35 -	Width of Strip Processed by Galvanizing Lines in Unexposed Automotive & Appliance Segment	2-9
Figure 36 -	Width of Strip Processed by Galvanizing Lines in Construction Segment.....	2-9
Figure 37 -	Width of Strip Processed by Galvanizing Lines in Commercial Segment.....	2-10

Section 3 – WELDING IN GALVANIZING LINES SURVEYED

Figure 38 -	Type of Seam Welder on Galvanizing Lines Surveyed by Segment.....	3-1
Figure 39 -	Most Common Problem With the Welder	3-2

Section 4 – WELDING INSPECTION IN GALVANIZING LINES SURVEYED

Figure 40 -	Type of Welding Inspection Used in Galvanizing Lines Surveyed.....	4-1
Figure 41 -	Type of Welding Inspection Used in Galvanizing Lines Surveyed by Segment.....	4-2
Figure 42 -	Galvanizing Lines That Planish the Weld	4-2
Figure 43 -	Galvanizing Lines Surveyed With Welding Process Control System	4-3
Figure 44 -	Number of Weld Breaks Over the Last Two Years.....	4-3
Figure 45 -	Number of Weld Breaks Over the Last 2 Years in Galvanizing Lines Surveyed	4-4
Figure 46 -	Reasons for Weld Breaks Indicated by Galvanizing Lines Surveyed by Segment.....	4-4

Section 5 – STRIP THICKNESS, THE USE OF A SUBSTRATE THICKNESS GAUGE,

AND MEASURING METALLIC COATING WEIGHT

Figure 47 - Thickness gauges of Strip Processed on Galvanizing Lines in Automotive Exposed Segment5-1

Figure 48 - Thickness Gauges of Strip Processed on Galvanizing Lines in Unexposed Automotive & Appliance Segment5-2

Figure 49 - Thickness gauges of Strip Processed on Galvanizing Lines in Construction Segment5-3

Figure 50 - Thickness Gauges of Strip Processed on Galvanizing Lines in Commercial Segment5-4

Figure 51 - Type of Substrate Thickness Measurement Used by Galvanizing Lines Surveyed by Segment5-5

Figure 52 - Age of Substrate Thickness Measurement Devices in Galvanizing Lines Surveyed5-5

Figure 53 - The Most Important Attributes of Substrate Thickness Gauges Indicated by Galvanizing Lines Surveyed by Segment5-7

Figure 54 - The Consequences of Out-of-Tolerance Coating Weight in Galvanizing Lines Surveyed by Segment5-8

Figure 55 - Type of Coating Weight Gauge Used by Galvanizing Lines Surveyed by Segment5-8

Section 6 – IN-LINE CLEANING BY GALVANIZING LINES SURVEYED

Figure 56 - Type of In-Line Cleaning Employed by Galvanizing Lines Surveyed by Segment6-2

Section 7 – PASSIVATION & ACRYLIC COATINGS EMPLOYED BY GALVANIZING LINES SURVEYED

Figure 57 - Share of Plants Surveyed by Segment That Use Chrome Passivation for Zinc Coated Strip7-1

Figure 58 - Share of Plants That Use a Type of Chrome Passivation for Zinc Coated Strip by Galvanizing Lines Surveyed by Segment & Overall.....	7-2
Figure 59 - Type of Chrome Share of Projected Area Requirements of Zinc Coated Strip Passivation by Segment	7-3
Figure 60 - Projected 2010 Requirements for Area of Zinc Coated Strip to be Acrylic Coated by Galvanizing Lines Surveyed Overall	7-5

Section 8 – CORROSION & PROTECTIVE COATINGS AND RELATED REFURBISHING OR REPAIR OF PLANT FACILITIES

Figure 61 - Typical Methods Employed to Repair Leaks, Extend Life in Holding Tanks, Piping, Stacks, Fume Exhaust by Galvanizing Lines Surveyed by Segment.....	8-2
--	-----

Section 9 – CHARACTERIZING THE FURNACES IN GALVANIZING LINES SURVEYED

Figure 62 - Galvanizing Furnace Configuration.....	9-1
Figure 63 - Supplier of Furnace in Galvanizing Lines Surveyed by Segment.....	9-2
Figure 64 - Type of Furnace in Galvanizing Lines Surveyed by Segment.....	9-2
Figure 65 - Type of Radiant Tubes Used in Furnaces in Galvanizing Lines Surveyed by Segment.....	9-3
Figure 66 - Types of Furnaces & Radiant Tubes in Galvanizing Lines Surveyed by Furnace Supplier.....	9-3
Figure 67 - U Type Radiant Tubes Used by Galvanizing Lines Surveyed.....	9-4
Figure 68 - W Type Radiant Tubes Used by Galvanizing Lines Surveyed	9-4
Figure 69 - Most Important Factors in Selecting a Furnace Supplier for Galvanizing Line	9-5
Figure 70 - Most Important Factors in Selecting a Furnace for the Galvanizing Lines Surveyed by Segment.....	9-5
Figure 71 - Profiling Furnace Supplier Performance Ratings by Galvanizing Lines Surveyed	9-6

Section 10 – PROBLEMS & PLANS OF GALVANIZING LINES SURVEYED

Figure 72 - Outsourced Services Presently Required of Galvanizing Lines Surveyed by Segment.....	10-4
Figure 73 - Type of Arrangement Employed for Outsourced Refractory Services for Galvanizing Lines Surveyed by Segment	10-5
Figure 74 - Type of Arrangement Employed for Outsourced Roll Coating Services for Galvanizing Lines Surveyed by Segment	10-5
Figure 75 - Type of arrangement Employed for Outsourced Roll Grinding Services for Galvanizing Lines Surveyed by Segment	10-6
