PL + Pebble Lime

These maps include the following data:

- Each pin location is color coded to indicate that the production capacity is within a certain specified range.
- 2. The listing indicates the number of kilns and their capacity, the type of kiln and the type of lime.
- The text in the listing below the map indicates the companies which are listed in alphabetical order and each location within that company is color coded by country.
- There are two zoom boxes that clearly show the location of plants where there is a cluster of plants in a smaller geographical area.
- 5. This map shows 34 companies with plants in over 109 locations in the U.S., Canada & Mexico.
- 6. Current Plant Status (To Be Constructed, Under Construction, Active, Idle, Closed)
