These maps include the following data:

1. Each pin location is color coated to indicate which are members of the Ductile Iron Society.
2. There are two listings below the map. Both are alphabetical. One indicates the member companies and an acronym that describes the processes employed and the type of metals processed. The other alpha listing includes the non-members of the Ductile Iron society. This map shows the locations of 584 foundry operations in the U.S., Canada and Mexico.
3. Current Plant Status (To Be Constructed, Under Construction, Active, Idle, Closed)
