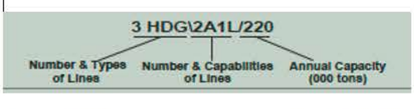
These maps include the following data:

1. Locations of Galvanizing and Other (Tin, Chrome, etc.) Metallic coating lines. It characterizes each of the metallic coating lines that make galvalume and galvanneal.
2. The number and types of metallic coating lines and their capacity at each location.
3. The map has numbered locations which refer to the listing below the map. The numbered colored circles identify whether the plant is an Integrated, Minimill or Outside Processor.
4. The listing is organized by Country, then company.
5. An acronym is provided for each location as follows:



6. Each location is color coated to indicate the nominal capacity range of each line such as, <100,000 tonnes, 101-250,000 tonees, and >250,000 tonnes.
7. Zoom boxes magnify areas with a cluster of plant locations.
8. Current Plant Status (To Be Constructed, Under Construction, Active, Idle, Closed)
