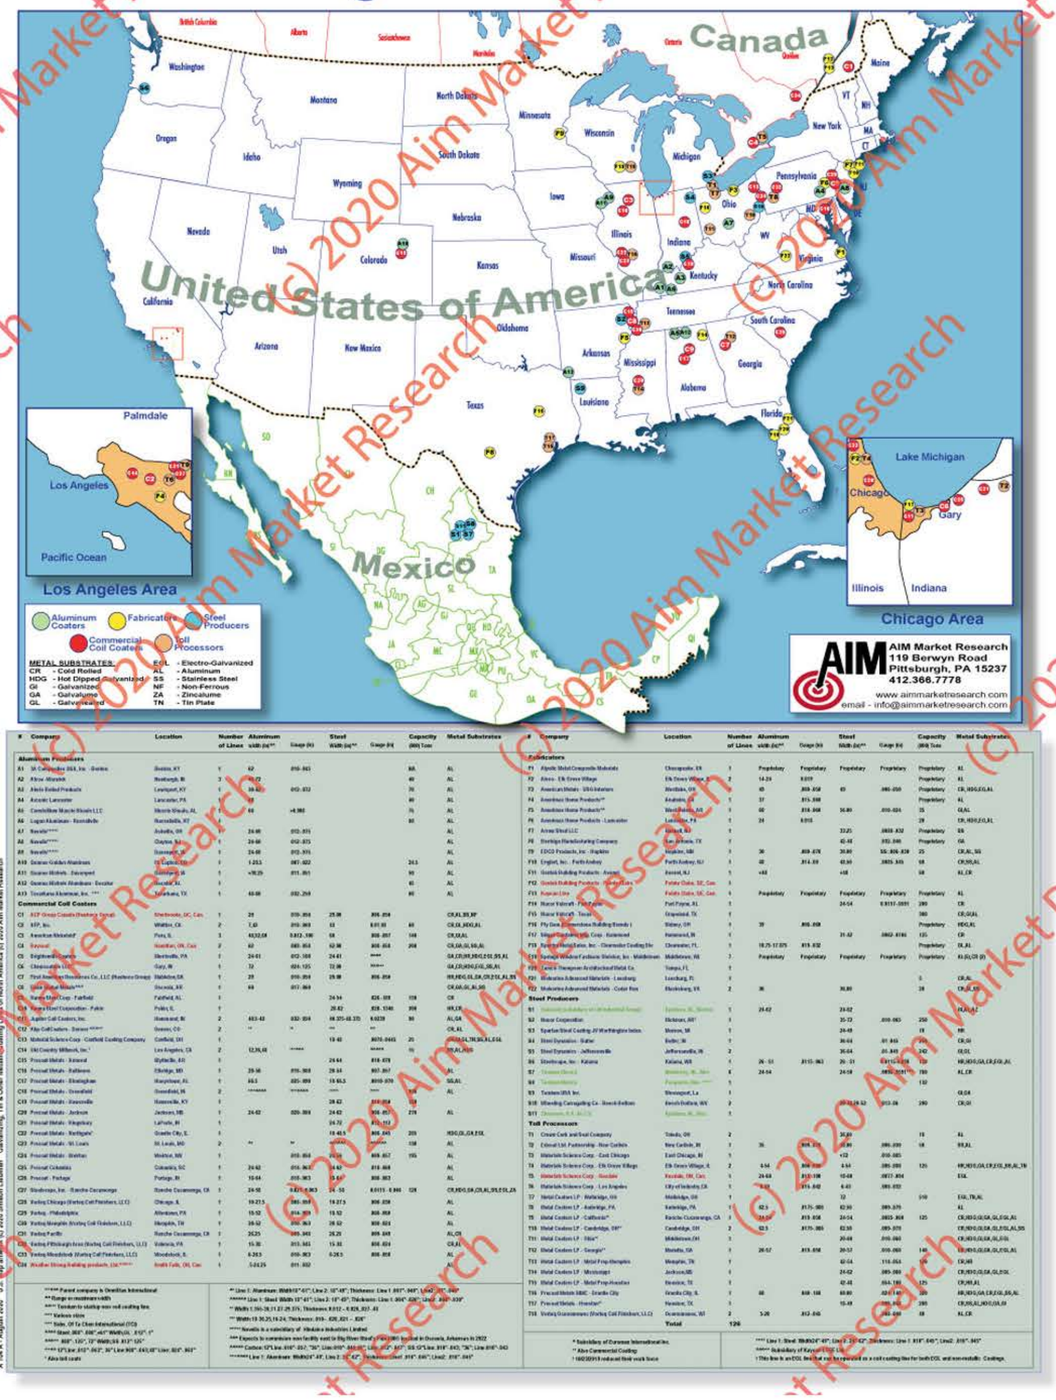
Coil Coating Lines of North America



(c) 2020 Aim Market Research

Price:

Hard Copy - $300 each. (18" X 24") *printed on HP banner gloss paper* (300dpi resolution)

PDF: $600.

Larger sizes available upon request – *price may vary*

We are pleased to inform you that we have published a new map of Non-metallic Coil Coating lines of North America. A recent report in the PCI (Paint & Coatings Industry) magazine predicts that the coil coatings market in North America is estimated to grow to $1.441 billion in 2023 from $1.014 billion in 2017. We have done thorough research to identify all the continuous metal coil coating operations in North America.

This new 2020 edition of our map provides a listing and shows the locations of the continuous coil coating lines in North America. It indicates the number of coil coating lines at each location, as well as the thickness/gauge range, width range, and coil coating process capacity at most of these facilities.

These maps include the following data:

1. Our new North American edition of the Coil Coating Line map has been updated to show the latest information.
2. This map includes 55 companies with 126 coating lines at 97 locations in the U.S., Canada & Mexico.
3. The map also indicates the types of metal substrates coated at most location.
4. The map includes the coil coating processing capacity of 53 of the 97 locations totaling 4.3 million tons. Based on this, it is estimated that this capacity at about 9 million tons.
5. The map includes 13 aluminum producers' plants, 34 commercial coaters' plants, 22 fabricators, 11 Steel plants, and 17 Toll processors. Each of the locations on the map are color coated according to the type of coil coating operation.
6. There are 5 locations in Canada, 4 in Mexico, and the rest are in the USA. Each of the locations in the listing below the map are color coded by country location.
7. Two new lines, that are planned, are yet to be in operation.
8. The 5 companies with the most lines are Precoat (16), Metals Coaters (9), Vorteq (8) and Ternium (8) and Material Science (7). This four companies account for 38% of the lines, overall.
9. Current Plant Status (To Be Constructed, Under Construction, Active, Idle, Closed)

How to Order:

By Email: mliebman@aimmarketresearch.com *or*

By mail: AIM Market Research 119 Berwyn Rd. Pittsburgh, PA 15237

Please include the following information:

- The number of maps required
- Your mailing address.
- Credit card number and expiration date and CCD
- If ordering by mail – include a check along with your mailing address
